

Strengthening Gavi's replenishment with IFFIm

Gavi has made amazing strides in global health over the past 24 years, but there's still plenty to do. Gavi plans to significantly enhance its impact between 2026 and 2030 by leveraging the latest innovations in vaccines and vaccine delivery. In June, **Gavi launched its Investment Opportunity** in Paris, marking the beginning of its next replenishment. This seeks to raise essential funds for immunisation programmes in lower-income countries during Gavi's sixth strategic period, from 2026 to 2030.

With IFFIm playing a critical role in Gavi's 6.0 strategy and replenishment, IFFIm has launched its funding case for new donor contributions as part of Gavi's overall ask for the 2026-2030 period.
